Waring, A., & Glendon, A. I. (1998b). Managing risk. In Read the sections Individual Decision-Making on Risk and Individual Behaviour in the Face of Pure Risk, pages 154-161 of chapter 8 Risk Cognition in Waring and Glendon (1998). Note Figure 8.3 and the narrative's assertion that regardless of risk type (pure or speculative) an individual's decision-making will always involve a large degree of speculative trade-offs to benefit self-image and self-esteem. What does this imply for risk decision-making processes and claims to objectivity? Thomson Learning.
